## **Certification of CPNI Filing February 2, 2006**

### **Dalton Telephone Company, Inc.**

Dalton Telephone Company, Inc. hereby submits that its procedures regarding its customers' Customer Proprietary Network Information ("CPNI") are in compliance with Section 222 of the Communications Act of 1934, as amended (47 U.S.C. 222) and 47 CFR §§64.2001-64.2009.

Dalton Telephone Company, Inc. uses its customers' CPNI in compliance with the Commission's rules in 47 CFR §§64.2001-64.2009. It has provided proper, individual notice to each of its customers and, dependent on use, given its customers the required regulatory time period to either allow usage of CPNI or disallow CPNI usage. Further, on all in-bound calls, customers are given notice that their CPNI may be used and given the opportunity to allow or disallow CPNI usage for the duration of that call.

Dalton Telephone Company, Inc.'s employees, including marketing and sales personnel and customer service representatives, have been educated about CPNI, federal regulations and Dalton Telephone Company, Inc.'s statutory responsibility to its customers. Any unauthorized use, sale, or otherwise disclosure of CPNI by any employee would subject the employee to disciplinary action, up to and including immediate dismissal.

Employees may easily determine the CPNI status of individual customers prior to using CPNI. Dalton Telephone Company, Inc. maintains a written log regarding outbound usage of CPNI including a description of the marketing activity, which products and/or services were marketed and the specific CPNI used. All sales and marketing personnel obtain approval from his/her supervisor of any outbound usage of CPNI. Dalton Telephone Company, Inc. currently does not sell, rent or otherwise disclose customers' CPNI to non-affiliated entities. If Dalton Telephone Company, Inc.'s affiliates are allowed to access customers' CPNI, then such disclosure is noted in the written log.

In compliance with the Commission's rules, Dalton Telephone Company, Inc. does not use, disclose or permit access to customers' CPNI for the purposes of identifying customers placing calls to competing carriers.
